

# Creating Compassionate Cultures

## Awakening Compassion through Wisdom

Melbourne  
**April 23 - 26**  
for teachers, parents &  
anyone working with children or families

Since 1989, Pam Cayton founder of Tara Redwood School, California, has created, researched and implemented strategies for awakening compassion, wisdom and social responsibility in the hearts and minds of children and young people.

Inspired by the late Tibetan master, Lama Thubten Yeshe, this secular program blends the best of Eastern and Western approaches in education. The curriculum is suitable for people working with children of any faith or culture. Participants will leave with tools, strategies and a foundation in understanding this comprehensive, integrated approach to awakening knowledge, strength, and compassion.
